To whom it may concern

As the Director of Amity School of Engineering and Technology (ASET) and Amity Institute of Information Technology (AIIT) I am contented to endorse this letter of recommendation in favour of **Mr. Pavleen Singh Bali** who has to pursue higher studies at your university. I know him for the past four years as an undergraduate student. I was able to gauge his innate abilities to understand the basic concepts and apply them to tackle the problems associated with it.

Being an Electronics and Communication Engineering student, He is highly motivated, eager for knowledge and is always on the lookout to learn something new; his learning interest is revealed by his involvement in latest technologies. He is an attentive student in the class, receptive to new ideas and has concepts and his capacity for lucid presentation. He has a great zeal for higher academics.

Mr. Pavleen has the capability to complete assigned tasks with minimum guidance that makes him intellectually independent. This student is good both in oral and written communication. He has the capability to put across ideas very clearly both orally and in written form.

In team tasks, this student has always emerged as a team leader because of his sincerity and overall multi-faceted personality. Creativity, individuality and hard work have been the style of this student that has always made him to shine. He has been consistently an optimal scorer among in his class. I feel that his diligence and pragmatic analysis represent his competency towards explorations.

Hence, I strongly recommend him to be considered as the potential candidate for admission to the master's program in your esteemed university. I believe he can meet the high standards set by your college. I whole heartedly recommend him and wish him the very best in all future endeavours.

With regards, **Maj Gen (Retd) VK Narang**
